AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

The Pier C Ranch is located in the Leamington area in a rural area near Point Pelee. Carrots, Onions, Beets and Parsnips are grown on 372 acres, where Parsnips and Beets represent only 8% of cultures cultivated and they're used only for the local market. Carrots and Onions are sold in USA and Canada markets. The products are seasonal during July and October. Five employees are responsible for the farm activities including harvest, David is the Farm Manager. All products are grown on the same land and are well identified by field numbers and crops. Canal Water is used for irrigation and Municipal water for mixing fertilizers/pesticides and handwashing. At the time of the audit, mechanical harvest activities were performed.

Addendum(s) included in the audit:

Not Applicable
