AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

The Pier C harvest crew was composed of three (3) employees, led by David (Farm Manager). The product harvested during the audit was Carrots from field 1A where the product is Mechanical harvested. The machinery takes the carrots directly from the soil to an inclined conveyor where the leaves are taken off from the carrots, then carrots are transported through a conveyor to wood bins located on a flatbed located beside the harvest machinery. When the wood bins are full, they are transported to the transfer station where the wood bins are stored temporarily until the whole field is harvested. Then, the wood bins are transported to the Chattam facility for further processing.
